Hoang Minh Hieu

Full Stack / Backend Engineer

0213456789 hoangminhhieu@gmail.com Ha Noi

OBJECTIVE

Software Engineer with strong academic background from Posts and Telecommunications Institute of Technology (PTIT) and a Master's degree in Computer Science from National University of Singapore (NUS). Focused on building scalable backend systems, distributed architectures, and cloud-native applications. Seeking opportunities in product-based companies or global tech environments.

EDUCATION

National University of Singapore (NUS) 10/2022 - 05/2024

Master of Science in Computer Science

Specialization: Distributed Systems & Cloud Computing
Relevant coursework: Scalable Systems, Cloud Architecture, Advanced Algorithms
Master Thesis: Design of Scalable Microservices Architecture for High-Traffic Systems

Posts and Telecommunications Institute of Technology (PTIT) 2017 - 2021

Bachelor of Information Technology

Software Engineering, Computer Networks
GPA: 3.5 / 4.0
Key projects: Web systems, backend services, networking applications

WORK EXPERIENCE

VNG Corporation 12/2021 - 6/2022

Software Engineer Intern

Developed web-based enterprise applications for internal/business management systems
Built and maintained backend services using Java / Node.js
Participated in designing RESTful APIs and integrating frontend-backend systems
Worked with relational databases (MySQL/PostgreSQL) for enterprise data modeling
Supported testing, debugging, and system optimization tasks
Gained experience in enterprise software development lifecycle (SDLC)

FPT Software 08/2024 - Now

Full Stack Developer

Designed and implemented RESTful APIs for backend services supporting high-traffic applications
Worked with microservices-based architecture and distributed system concepts
Applied caching mechanisms using Redis to improve system performance and reduce latency
Participated in building scalable backend modules for user management and authentication systems
Collaborated with cross-functional teams (backend, frontend, QA, product) in Agile environment

SKILLS

Backend	Java (Spring Boot), Golang Microservices Architecture RESTful APIs, gRPC Kafka, RabbitMQ Authentication (JWT, OAuth2)

Frontend	ReactJS, TypeScript HTML, CSS, TailwindCSS
Database	PostgreSQL, MySQL (advanced) MongoDB Redis (caching, session management)
Cloud & DevOps	AWS (EC2, S3, RDS, Lambda) Docker, Kubernetes CI/CD (GitHub Actions, Jenkins)

CERTIFICATIONS

AWS Cloud Practitioner Essentials – Amazon Web Services	2022
Backend Development with Java Spring Boot Microservices Architecture Fundamentals RESTful API Design & System Integration Docker & Kubernetes Basics	2023
