Nguyen Tung Duong

Full Stack Developer

0123 456 789 nguyentungduong@gmail.com Ha Noi

OBJECTIVE

Full Stack Developer with a strong interest in building scalable SaaS systems using Microservices architecture. Seeking to contribute to a product that digitizes enterprise and healthcare workflows, focusing on backend development with Golang, system design, and modern frontend architectures.

EDUCATION

Hanoi University of Science and Technology (HUST) 2019 - 2024

Software Engineering

GPA: 3.5/4

WORK EXPERIENCE

MISA JSC (MISA Software Corporation) 01/2024 - 12/2024

Software Engineer Intern

Developed a multi-module SaaS system including user management, role management, workflow, appointment, and billing
Designed and implemented RESTful APIs for backend services using Golang/Node.js
Applied Microservices architecture principles for core system modules
Built frontend applications using component-based architecture (React/Vue)
Integrated Redis caching to improve system performance and response time
Designed and optimized PostgreSQL database schema for scalability
Implemented authentication and authorization using JWT and OAuth2

VNG Corporation (VNG Group) 2024 - 2026

Full Stack Developer

Contributed to development of large-scale internet products within a high-traffic ecosystem (social, payment, and platform services)
Built backend services and APIs supporting real-time or high-concurrency systems
Worked with distributed system concepts and cloud-based infrastructure (VNG Cloud environment exposure)
Participated in feature development for scalable applications similar to messaging or e-wallet systems
Applied caching strategies and performance optimization techniques for backend services
Collaborated with cross-functional teams including engineers, product owners, and system engineers
Gained exposure to large-scale system architecture and production-grade software development processes

SKILLS

Backend	Golang (RESTful API, gRPC) Node.js (Express, NestJS) Microservices Architecture JWT, OAuth2 Authentication WebSocket, Redis
Frontend	JavaScript / TypeScript ReactJS / VueJS / SvelteJS HTML, CSS, TailwindCSS
Database	PostgreSQL (query optimization, indexing)

	MongoDB (basic knowledge)
DevOps / Tools	Docker, Git, Linux basics CI/CD fundamentals

CERTIFICATIONS

Java Web Development Fundamentals – Academic	2022
Docker & Containerization Basics – Academic	2023
