

NGUYEN THANH PHAT

FRESHER SOFTWARE TESTER

Date of Birth: 09 Apr 2004

GitHub: github.com/ThanhPhat-090404

OBJECTIVE

As a final-year Information Technology student majoring in Software Engineering, I am seeking a Fresher Software Tester position to apply my knowledge of STLC, Test Case Design, Functional Testing, UI Testing, and API Testing. Through academic projects, I have gained hands-on experience with Jira and Postman. I am eager to continuously improve my testing skills and grow as a professional Software Test Engineer.

EDUCATION

Ho Chi Minh City University of Technology (HUTECH) — Bachelor of Information Technology

Major: Software Engineering | Expected Graduation: 2026 | GPA: 3.4/4.0

Relevant Coursework: Software Testing and Quality Assurance, Software Development Tools and Environments, Software Requirements Engineering, Software Engineering, Database Systems.

TECHNICAL SKILLS

- Testing Knowledge: Software Testing Life Cycle (STLC), Software Development Life Cycle (SDLC), Agile, Scrum.
- Testing Techniques: Equivalence Partitioning (EP), Boundary Value Analysis (BVA), Decision Table, Error Guessing, Black-box Testing.
- Testing Types: Manual Testing, Functional Testing, UI Testing, API Testing, Regression Testing, Smoke Testing.
- Testing Tools: Jira, Postman, Google Sheets, Microsoft Excel.
- Database: MySQL, SQL Server.
- Version Control: Git, GitHub.

PROJECT

Web Application Testing Project | Role: Manual Tester | Duration: 12/2025 – 03/2026

Project Description

Conducted manual testing for multiple web applications, including, following the Software Testing Life Cycle (STLC) to ensure software quality and functionality.

Responsibilities

- Analyzed Software Requirement Specifications (SRS) and business requirements to identify testable functions.
- Designed **Test Plans, Test Scenarios, and Test Cases** based on project requirements.
- Applied **Equivalence Partitioning (EP), Boundary Value Analysis (BVA), Decision Table, and Error Guessing** to improve test coverage.
- Performed **Functional, UI, API, Regression, Smoke, and Exploratory Testing**.
- Tested core modules including **Login, User Management, Employee Management, Product Management, Shopping Cart, Checkout, and Order Processing**.
- Performed API testing using **Postman**, validating requests, responses, authentication, and HTTP status codes.
- Reported, tracked, and verified defects using **Jira**, collaborating with developers to perform retesting before release.
- Prepared testing reports and summarized testing results.

CERTIFICATIONS

- English Certificate – B1 Level
- Communication and Teamwork Skills
