

NGUYEN TRUONG AN

FRESHER TESTER

CAREER GOALS

Short-term: In the next 1-2 years, I want to develop solid manual testing skills, master the QA process in an Agile environment, and become familiar with and apply automated testing tools such as Selenium and Postman. I also aim to obtain an ISTQB Foundation certificate to standardize my professional knowledge.

Long-term: To become a professional QA Engineer, capable of designing and implementing a comprehensive automated testing system. In the next 3-5 years, I aim to become a QA Lead or Test Analyst, playing a strategic role in ensuring product quality and the software development process.

WORK EXPERIENCE

 **QC TESTER** // 07/2024 - 09/2025

Unity Technology & Sports Joint Stock Company

Collaborate with development team to analyze business requirements and write test plans for new features.

Design and execute detailed test cases, ensuring coverage of both positive and negative tests.

Perform regression testing every release, detect and report bugs via JIRA, track bug progress until fixed.

Familiar with basic API testing (GET, POST) during self-study and team support.

Interested and learning more about API testing and test automation using Selenium, Postman.

Contribute ideas to improve user experience and application performance.

Work in an Agile/Scrum team with a 2-week sprint rhythm.

Outstanding achievements:

Created over 1000 test cases covering 90% of the system's core functionality.

Proactively contributed ideas to improve test plan content and UI from the end-user perspective.

Successfully detected and reported over 100 bugs that impacted user experience.

EDUCATION

 **INFORMATION TECHNOLOGY** // 07/2019 - 07/2023

Ho Chi Minh City University Foreign Language Information Technology (HUFLIT)

Major: Software Engineer

GPA: 3.2/4.0

Đã hoàn thành các môn học liên quan đến kiểm thử phần mềm, kỹ thuật phần mềm, Cơ sở dữ liệu, Lập trình hướng đối tượng.

PROFILE

 _____

 _____

 Tan Binh District, Ho Chi Minh City

SKILLS

MANUAL TEST

Knowledge of Software Development Life Cycle, Software Testing Life Cycle
Identify issues, and analyze testing results

Have knowledge of Agile Scrum model, Waterfall model, V-shaped model
Work with JIRA for bug tracking

AUTOMATION TEST

Knowledge of Selenium Java: write automation test for login, register, create, update, delete organization in OKR project

SQL AND API

Test API with Postman by methods: GET, POST, PUT, DELETE
Hand on SQL Server to run SQL statements and for data storage

MS OFFICE

Write, sort and present the test case on MS Office, Google Drive clearly
Log bug and bug status tracking on JIRA

CERTIFICATIONS

11/2023

HackerRank SQL(Intermediate)
