

# Nguyen Minh Anh

Frontend Developer | React.js, TypeScript, REST API, Tailwind CSS

Ho Chi Minh City | minh.anh.cv01@example.com | github.com/minhanh-frontend | Portfolio: minhanh.dev

## PROFESSIONAL SUMMARY

Frontend Developer with 3 years of experience building responsive web applications, dashboards, and API-driven interfaces. Strong hands-on work with React.js, TypeScript, RESTful API integration, Tailwind CSS, Bootstrap, Chart.js, Git, and cross-browser optimization.

## CORE SKILLS

- React.js, TypeScript, JavaScript ES6+, HTML5, CSS3
- RESTful API integration, authentication flow, form validation, error handling
- Tailwind CSS, Bootstrap, responsive UI, cross-browser compatibility
- Chart.js dashboards, reusable components, Git/GitHub workflow, Slack collaboration

## WORK EXPERIENCE

Frontend Developer - FinSight Software, 06/2023 - Present

- Developed a financial analytics dashboard with React.js and TypeScript, displaying revenue, transaction, and risk indicators using Chart.js.
- Integrated 35+ REST API endpoints with loading states, access-token handling, validation, and reusable service layers.
- Reduced dashboard initial load time by 32% through component splitting, memoization, and API response caching.
- Built responsive layouts with Tailwind CSS and Bootstrap components for desktop, tablet, and mobile users.

Junior Frontend Developer - NovaTech Solutions, 07/2021 - 05/2023

- Implemented company website pages and client portals using React.js, TypeScript, HTML/CSS, and Git.
- Collaborated with backend developers to standardize API payloads and improve UI error messages.
- Resolved cross-browser layout bugs on Chrome, Edge, Firefox, and Safari.

## PROJECTS

- Finance KPI Dashboard - React, TypeScript, Chart.js, REST API, Tailwind CSS; used by internal sales and finance teams.
- Customer Portal UI - React, Bootstrap, JWT authentication, API integration; improved form completion rate by 18%.

## EDUCATION

B.S. in Software Engineering - University of Information Technology, 2021
