

Mai Duc Thien

Senior Frontend Developer | Data Visualization, React, Vue, TypeScript

Remote Vietnam | duc.thien.cv09@example.com | github.com/ducthien-dashboard

PROFESSIONAL SUMMARY

Senior frontend developer focused on dashboards, data visualization, API integration, responsive UI, and maintainable frontend architecture. Directly aligned with the Frontend Developer JD.

FRONTEND STACK

- React.js, Vue.js, TypeScript, JavaScript, Vite, HTML/CSS
- RESTful API integration, token authentication, frontend error handling
- D3.js, Chart.js, table virtualization, dashboard filters
- Tailwind CSS, Bootstrap, responsive web design, cross-browser testing
- Slack, GitHub, code review, frontend documentation

EXPERIENCE

Senior Frontend Developer - BrightLedger, 2022 - Present

- Designed and developed financial service dashboards with React, TypeScript, D3.js, and Chart.js.
- Created reusable chart components for KPI cards, time-series graphs, pie charts, and drill-down tables.
- Integrated APIs for customer balances, transactions, reconciliation status, and role-based access.
- Improved dashboard interaction speed by 40% by optimizing state management and API pagination.
- Mentored two junior frontend developers and maintained frontend coding guidelines.

Frontend Developer - WebCraft Vietnam, 2020 - 2022

- Built responsive company websites and admin portals using Vue.js, Bootstrap, and REST APIs.
- Implemented browser compatibility fixes and reusable layout components.

SELECTED PROJECTS

- Financial Operations Dashboard - React, TypeScript, D3.js, Chart.js, REST API, Tailwind CSS.
- Company Website Builder - Vue.js, Bootstrap, CMS API integration.

EDUCATION

B.S. in Computer Science - University of Science, 2020
