

Nguyen Thu Trang

Data Analyst | SQL, Python, Power BI, Excel, Reporting

Hanoi | thu.trang.cv10@example.com | linkedin.com/in/thutrang-data

PROFESSIONAL SUMMARY

Data analyst with strong SQL, Python, Power BI, Excel, dashboard, and reporting experience. Strong in analytics but does not demonstrate frontend development with React/Vue/TypeScript or web API integration.

ANALYTICS SKILLS

- SQL querying, joins, CTEs, stored procedures
- Python pandas, numpy, data cleaning, exploratory analysis
- Power BI dashboards, Excel pivot tables, reporting automation
- Business KPI analysis, revenue and customer segmentation

EXPERIENCE

Data Analyst - Retail Insight JSC, 2022 - Present

- Built Power BI dashboards for revenue, customer retention, and inventory performance.
- Automated monthly Excel reports using Python and SQL extracts.
- Prepared data-quality checks and documented business metric definitions.
- Worked with stakeholders to interpret dashboard results; did not build web frontend components.

PROJECTS

- Sales Dashboard - Power BI, SQL Server, Excel.
- Customer Cohort Report - Python pandas, CSV processing, visualization notebook.

EDUCATION

B.S. in Business Analytics - National Economics University, 2022
