TECH STACK	EXPERIENCE	NOTES	
React / Vue / TypeScript / JS / HTML / CSS / Bootstrap / Tailwind / REST API / Chart.js	2024-now: Frontend Developer at LayoutFox. Built pages, API tables, chart cards, responsive dashboards.	Section names are intentionally non-standard.	
D3.js basic; Git; Slack; browser testing	2022-2024: Web UI Assistant. Fixed CSS bugs, converted Figma to web pages, integrated a few endpoints.	Uses tables and mixed layout to test parser.	
PROJECT A Dashboard UI React, TS, API, Chart.js Outcome: faster reporting		PROJECT B Landing Page Vue + Bootstrap Responsive but no metrics	
EDU B.S. IT, 2022		RANDOM SECTION Available immediately; likes clean UI; can work remote.	

Unstructured paragraph: worked with responsive web design, cross-browser fixes, API integration, visual dashboard components, but the CV layout is intentionally table-heavy and not section-standard.
