Professional Summary

I am a passionate .NET Developer with a strong foundation in C# and ASP.NET. My aim is to develop innovative software solutions that contribute to customer satisfaction. I thrive in teamwork environments and enjoy sharing knowledge and expertise with my colleagues. My enthusiasm for technology drives me to continually learn and apply new skills, ensuring that I can deliver high-quality software products to meet client needs. My attention to detail and analytical thinking empower me to effectively tackle challenges and ensure the success of development projects.

Skills

- **C#** (Endorsed by 10 colleagues)
 - **ASP.NET** (Top Skilled)
 - **Web API** (Endorsed by 8 colleagues)
 - **MVC** (Endorsed by 9 colleagues)
 - **Microsoft SQL Server** (Strong Knowledge)
 - **SQL Queries** (Top Skilled)
 - **API Integration** (Endorsed by 7 colleagues)
 - **Mobile App Development** (Working Knowledge)
 - **Agile Development** (Familiarity)
 - **JavaScript, HTML5, CSS3** (Basic Knowledge)
 - **jQuery** (Familiarity)
-

Work Experience

Junior .NET Developer

XYZ Tech Solutions, Hanoi, Vietnam

January 2021 - Present

- Analyzed, designed, and developed new applications using ASP.NET and C# to enhance company software offerings.
- Conducted code reviews to ensure high-quality coding practices and adherence to project standards.
- Collaborated within a team to support ongoing production and implementation of changes as needed.

- Assisted in troubleshooting production issues, effectively locating root causes and implementing necessary fixes.

Intern .NET Developer

ABC Innovations, Hanoi, Vietnam

June 2020 - December 2020

- Supported senior developers in creating web applications using .NET technologies.
 - Gained experience with API integration, working closely with teams to enhance system capabilities.
 - Documented technical specifications and assisted in system testing to ensure application quality before launch.
-

Projects

Automotive Dealership Management System

Technologies Used: C#, ASP.NET MVC, Microsoft SQL Server

- Developed a web application for managing automotive sales and services, significantly streamlining operations for end-users.
- Collaborated with cross-functional teams, gathering business requirements and translating them into functional application features.

Mobile Expense Tracker

Technologies Used: C#, Xamarin

- Designed an intuitive mobile application for tracking expenses across multiple platforms.
 - Focused on user experience and feedback to iterate on application design, resulting in increased user engagement.
-

Education

Bachelor of Computer Science

Hanoi University of Science and Technology

Graduated: May 2020

- Relevant Coursework: Software Engineering, Web Development, Database Management
 - GPA: 7.5
-
