PROFESSIONAL SUMMARY

Enthusiastic and dedicated .NET Developer with a robust foundation in C# and vast experience in developing and maintaining applications using .NET technologies. I have demonstrated the ability to engage in comprehensive analysis, design, coding, testing, documentation, and implementation of innovative software solutions. My passion for the automotive and ERP sectors aligns perfectly with Titan Dealer Management Solutions' innovative offerings. I thrive in dynamic environments and am committed to my personal and professional development. I possess strong interpersonal and communication skills, enabling me to collaborate effectively with teams. My analytical thinking and attention to detail ensure high-quality outcomes in all my projects. I aim to bring my strong problem-solving skills and a proactive approach to contribute positively to my future role at Titan DMS.

SKILLS

- **Programming Languages:** C#, ASP.NET, JavaScript, HTML5, CSS3, SQL
 - **Frameworks/Technology:** Web API, MVC, .NET Core, AngularJS, jQuery
 - **Databases:** Microsoft SQL Server, SQL queries
 - **Development Tools:** Visual Studio, Git, Azure DevOps
 - **Mobile Development:** Xamarin for cross-platform applications
 - **Methodologies:** Agile Development, Scrum
 - **Soft Skills:** Team collaboration, strong communication, analytical thinking, problem-solving, eagerness for learning, customer service orientation
-

WORK EXPERIENCE

.NET Developer

XYZ Technologies, Hanoi, Vietnam

February 2021 - Present

- Engaged in the complete software development life cycle for various internal applications, delivering tailored solutions that meet client requirements.
- Analyzed business needs and collaborated with stakeholders to generate detailed technical documentation, including specifications and functional design.
- Developed and maintained web applications using ASP.NET, MVC design patterns, and implemented RESTful APIs to enhance user interactions and seamless integrations.
- Created and executed complex SQL queries for efficient data handling and reporting

functionalities.

- Provided post-deployment support and addressed production issues, conducting root cause analyses to ensure timely resolutions and minimal disruption to service.

Junior Developer

ABC Solutions, Hanoi, Vietnam

June 2018 - January 2021

- Assisted in the design and development of various software applications using modern web technologies and frameworks.
 - Implemented API integrations and participated in code reviews, contributing to the evolution of best practices within the team.
 - Collaborated closely with cross-functional teams to deliver high-quality software on time, aligning with project deadlines.
 - Conducted testing, debugging, and documentation to ensure reliability and maintainability of applications.
 - Kept abreast of the latest technological advancements and encouraged the adoption of new tools and frameworks within the organization.
-

PROJECTS

ERP Management System

Technologies Used: C#, ASP.NET MVC, SQL Server, jQuery

Developed a comprehensive ERP management system tailored for local SMEs, integrating inventory management, accounting features, and customer relationship capabilities. Key contributions included database design, building RESTful services for data transactions, and enhancing UI interfaces for improved user experience.

Mobile Application for Automotive Dealerships

Technologies Used: Xamarin, C#

Led the development of a mobile application that streamlined customer interactions for automotive dealerships. This project involved creating a user-friendly interface and ensuring the application was robust and capable of supporting multiple platforms.

EDUCATION

Bachelor's Degree in Computer Science

University of Hanoi, Hanoi, Vietnam

Graduated: June 2018

GPA: 7.5

CERTIFICATIONS

- Microsoft Certified: Azure Developer Associate

- Agile Certified Practitioner (PMI-ACP)
-

ADDITIONAL INFORMATION

- Actively participated in tech meet-ups and workshops to enhance my skills and expand my professional network.
 - Engaged in volunteer work at local coding boot camps to mentor aspiring developers, fostering a culture of learning and sharing knowledge within the community.
 - Recognized for exemplary attendance and engagement in team meetings, advocating for best practices in development and project management.
