SUMMARY

Developer with 1.5 years of experience in JavaScript frontend and basic Golang API maintenance. Familiar with PostgreSQL and REST APIs, but limited exposure to gRPC, Redis, WebSocket and microservice architecture.

SKILLS

Frontend: ReactJS, JavaScript, HTML, CSS, Bootstrap

Backend: Basic Golang, Node.js, REST API

Database: PostgreSQL basic CRUD, MySQL

Tools: Git, Postman, Figma handoff

EXPERIENCE

Web Developer Intern | Alpha Software | 06/2024 - 06/2025

- Implemented React pages and connected frontend forms to REST APIs.
- Fixed simple Golang endpoint validation bugs under senior supervision.
- Created basic PostgreSQL SELECT queries for admin screens.
- No production ownership of microservices, gRPC, WebSocket or Redis.

PROJECTS

Internal Task Management App

- Built task list UI using React and Bootstrap.
- Consumed REST APIs but did not design backend architecture.

EDUCATION

Diploma in Web Development - 2024
