Gender: Female | Hometown: Can Tho | Profile photo: included in original application package

PROFESSIONAL SUMMARY

Full Stack Developer with 2.8 years of experience in Golang, SvelteJS, PostgreSQL, Redis, RESTful API, JWT/OAuth2 and WebSocket for SaaS clinic operations. This professional content is intentionally equivalent to CV-14.

SKILLS

Golang, SvelteJS, TypeScript, PostgreSQL, RESTful API, JWT/OAuth2, WebSocket, Redis, microservice architecture, micro-frontend, Docker, Git

EXPERIENCE

Full Stack Developer | HealthBridge SaaS | 09/2023 - Present

- Developed Golang API services for appointment, billing and inventory modules.
- Created SvelteJS screens for reception and pharmacy workflows.
- Implemented JWT/OAuth2 authentication, Redis cache and WebSocket queue updates.
- Optimized PostgreSQL indexes for tenant-specific report queries.

Junior Developer | WebSoft | 07/2021 - 08/2023

- Built TypeScript UI components and supported Go API maintenance.
- Worked with QA and DevOps on release validation.

EDUCATION

B.S. Software Engineering - 2021
