Professional Summary

Innovative AI Engineer with over 6 years of experience in software development and a strong background in building scalable systems and applications. Proficient in machine learning algorithms and statistical modeling, with extensive experience collaborating with cross-functional teams to deliver high-quality software solutions. Passionate about exploring new AI technologies and applying them to real-world problems.

Skills

- **Programming Languages:** Python, Java, JavaScript
 - **ML/DL Frameworks:** TensorFlow, Scikit-learn
 - **GenAI/LLM Tools:** LangChain, LlamaIndex
 - **Databases:** MongoDB, Redis
 - **DevOps/MLOps:** Docker, Kubernetes
 - **Cloud Platforms:** AWS
-

Work Experience

-- [2021 - Present] AI Engineer

| Tech Innovations Inc., Hanoi

| - Designed and developed AI-driven applications, focusing on user experience and performance optimization.

| - Collaborated with data scientists to implement machine learning algorithms, enhancing product capabilities.

| - Created API services for integrating AI functionalities into existing systems.

-- [2019 - 2021] Data Scientist

| Insight Solutions, Hanoi

| - Developed data models and algorithms to extract actionable insights from large datasets.

| - Worked closely with engineering teams to ensure seamless deployment of production-ready models.

| - Conducted analysis and presented findings to stakeholders, improving decision-making processes.

-- [2017 - 2019] Software Developer

- | Tech Corp, Ho Chi Minh City
- | - Contributed to the development of backend systems using Java and Node.js, focusing on reliability and maintainability.
- | - Implemented database solutions with MongoDB, optimizing data access and storage efficiency.
- | - Engaged in Agile development processes to enhance team collaboration and product delivery.

Projects

- | -- **AI-Powered Chatbot**
- | Technologies: Python, TensorFlow, AWS
- | - Developed a natural language processing chatbot that effectively engages users in conversation.
- | - Focused on improving user interaction and response accuracy through iterative testing and optimization.
- |
- | -- **Data Visualization Dashboard**
- | Technologies: JavaScript, MongoDB, React
- | - Created an interactive dashboard for visualizing complex datasets, enabling teams to derive insights quickly.
- | - Integrated advanced data processing capabilities, enhancing the user experience and functionality.

Education

- | -- [2015 - 2017] Master's in Computer Science
- | Vietnam National University, Hanoi
- |
- | -- [2011 - 2015] Bachelor's in Information Technology
- | Hanoi University of Science and Technology
