Nationality: Vietnamese

Professional Summary

I am an experienced AI Engineer with over 5 years specializing in designing, developing, and deploying AI-powered solutions. My passion for artificial intelligence is matched by my technical expertise in machine learning and deep learning, supporting the creation of innovative, scalable AI systems. I thrive in collaborative environments and enjoy tackling complex challenges.

Skills

- **Programming Languages:**

- ☐ Python (Endorsed by 20 colleagues)
- ☐ SQL (Endorsed by 15 colleagues)
- ☐ Java (Top Skilled)
- ☐ Go (Endorsed by 10 colleagues)

- **ML/DL Frameworks:**

- ☐ PyTorch (Top Skilled)
- ☐ TensorFlow (Endorsed by 18 colleagues)
- ☐ Scikit-learn (Endorsed by 12 colleagues)

- **GenAI/LLM Tools:**

- ☐ Hugging Face (Endorsed by 16 colleagues)
- ☐ LangChain (Endorsed by 5 colleagues)
- ☐ LlamaIndex (Basic Knowledge)

- **Databases:**

- ☐ PostgreSQL (Endorsed by 15 colleagues)
- ☐ MongoDB (Top Skilled)
- ☐ Redis (Endorsed by 8 colleagues)
- ☐ Elasticsearch (Basic Knowledge)

- **DevOps/MLOps:**

- ☐ Docker (Endorsed by 18 colleagues)
- ☐ Kubernetes (Top Skilled)

- MLflow (Endorsed by 10 colleagues)
- Airflow (Basic Knowledge)

- **Cloud Platforms:**

- AWS (Endorsed by 15 colleagues)
 - Azure (Basic Knowledge)
 - Google Cloud (Basic Knowledge)
-

Work Experience

AI Engineer

Tech Innovations Co., Hanoi, Vietnam

June 2018 - Present

- Designed and deployed scalable machine learning solutions for various applications.
- Developed AI services and production pipelines, improving system performance by 30%.
- Collaborated with cross-functional teams to integrate AI solutions into client projects.

Machine Learning Engineer

Data Science Solutions, Ho Chi Minh City, Vietnam

April 2016 - May 2018

- Optimized deep learning models, reducing inference latency by 25%.
 - Conducted research on emerging AI technologies and implemented new techniques in projects.
 - Built RAG systems and AI agents for various use cases.
-

Projects

AI-Powered Chatbot

Technologies Used: Python, TensorFlow, Hugging Face

Developed an AI chatbot that improved customer satisfaction scores by 40% through personalized interactions and efficient query handling.

Generative AI Application

Technologies Used: PyTorch, LangChain, Docker

Designed a generative AI platform that produced high-quality content, gaining traction among marketing teams in major corporations.

Education

Master of Science in Artificial Intelligence

Hanoi University of Science and Technology

Graduated: 2016

Bachelor of Science in Computer Science

Vietnam National University

Graduated: 2014
