Gender: Female
Nationality/Origin: Vietnamese

PROFESSIONAL SUMMARY

Motivated and detail-oriented Artificial Intelligence enthusiast with a background in Computer Science. Experienced in applying machine learning techniques and natural language processing through academic projects and internships. Adept at collaborating with cross-functional teams to deliver innovative solutions to complex business challenges.

SKILLS

- **Programming Languages:** Python
 - **Frameworks:** Scikit-learn, TensorFlow (basic knowledge)
 - **Techniques:** Natural Language Processing (NLP), Basic Machine Learning Models
 - **Databases:** SQL (basic knowledge)
 - **Tools:** Git, Docker (basic familiarity), RESTful APIs (understanding)
 - **Methodologies:** Agile/Scrum (academic exposure)
-

WORK EXPERIENCE

AI Intern

ABC Tech Solutions, Hanoi, Vietnam

June 2022 – August 2023

- Assisted in the development of machine learning models for sentiment analysis in customer feedback.
- Collaborated with senior engineers to integrate AI algorithms into existing systems.
- Documented technical processes and model performance metrics under supervision.

Data Science Intern

XYZ Analytics, Hanoi, Vietnam

January 2022 – May 2022

- Worked with the data analysis team to prepare datasets, perform preprocessing and exploratory data analysis.
 - Contributed to the development of a basic recommendation system as part of a team project.
-

PROJECTS

Sentiment Analysis Tool

Technologies Used: Python, Scikit-learn, Natural Language Processing

- Developed a prototype tool that analyzes customer reviews to assess sentiment polarity, leading to enhanced customer satisfaction strategies.

Image Classification Application

Technologies Used: Python, TensorFlow (basic usage)

- Participated in a collaborative project that aimed to classify images based on predefined categories using simple machine learning models.

EDUCATION

Bachelor's Degree in Computer Science

National University of Hanoi, Hanoi, Vietnam

Graduated: June 2022
