PROFESSIONAL SUMMARY

Passionate Software Developer with over **2 years** of experience in web development and software solutions. Proficient in building robust applications using **Python** and various frameworks. Strong foundation in database management and RESTful API development with a keen interest in artificial intelligence and machine learning applications. Committed to delivering high-quality, user-friendly software solutions while collaborating effectively with cross-functional teams.

SKILLS

- **Programming Languages:** Python, JavaScript
 - **Frameworks:** Django, Flask, React
 - **Databases:** MySQL, MongoDB
 - **Tools & Technologies:** Git, Docker, Jenkins
 - **APIs:** RESTful API development
 - **Cloud Platforms:** AWS, Google Cloud Platform
 - **Methodologies:** Agile/Scrum development
 - **Soft Skills:** Strong analytical thinking, effective communication, collaborative mindset
-

PROFESSIONAL EXPERIENCE

Software Developer

Tech Solutions Inc., Hanoi, Vietnam

June 2021 – Present

- Developed and maintained web applications using **Python** and **Django**, ensuring responsive design and optimal performance.
- Collaborated with UI/UX designers to implement user-friendly interfaces that enhanced customer satisfaction.
- Integrated third-party APIs and built RESTful services to enhance application functionality.
- Conducted code reviews and contributed to team meetings, fostering a collaborative development environment.

Junior Software Engineer

Innovative Software Co., Hanoi, Vietnam
January 2020 – May 2021

- Assisted in the development of innovative software solutions using **Python** and **Flask**, focusing on scalability and efficiency.
 - Participated in the design and implementation of database schemas in **MySQL** and **MongoDB**, ensuring data integrity and security.
 - Engaged in Agile practices, attending daily stand-ups and participating in sprint planning meetings to align project objectives.
-

PROJECTS

E-commerce Web Application

Technologies Used: Python, Django, PostgreSQL

- Designed a scalable e-commerce platform that facilitated user registrations, product listings, and payment systems.
- Implemented secure user authentication and authorization features to protect sensitive user data.

Social Media Analytics Tool

Technologies Used: Python, Flask, MongoDB

- Developed a web application that analyzed social media data to derive user engagement insights.
 - Created interactive dashboards to visualize and present analytical results to stakeholders.
-

EDUCATION

Bachelor of Science in Computer Science

University of Hanoi, Vietnam

Graduated: June 2019
