Professional Summary

Innovative and results-driven Artificial Intelligence Engineer with over 2 years of experience in developing and deploying AI solutions. Proven expertise in machine learning, natural language processing, and computer vision. Adept at collaborating with multidisciplinary teams to identify business challenges and implement scalable AI systems, ensuring alignment with strategic goals. Passionate about leveraging cutting-edge technologies to improve operational efficiency and drive digital transformation.

Skills

- **Programming Languages:** Python, SQL
 - **Frameworks:** TensorFlow, PyTorch, Scikit-learn
 - **AI Techniques:** Natural Language Processing (NLP), Computer Vision, Generative AI
 - **Tools:** Git, Docker, RESTful APIs, Microservices
 - **Databases:** SQL, NoSQL
 - **Development Practices:** Agile/Scrum, CI/CD, MLOps
 - **Cloud Platforms:** AWS, Azure
-

Work Experience

-- [2021 - Present] **Artificial Intelligence Engineer**
| FPT, Hanoi, Vietnam
| - Designed and deployed machine learning models that improved operational performance by 30%.
| - Collaborated with cross-functional teams to implement AI solutions to solve complex business problems.
| - Developed NLP applications to enhance user engagement, resulting in a 25% increase in customer satisfaction.
| - Integrated AI models into existing systems through RESTful APIs and ensured compliance with ethical AI guidelines.
|
|
-- [2019 - 2021] **Junior Data Scientist**
| Tech Solutions, Hanoi, Vietnam
| - Assisted in building recommendation systems that optimized user experiences across platforms.

- | - Developed data preprocessing pipelines and built feature engineering workflows to enhance model accuracy.
 - | - Conducted research and evaluation of emerging AI technologies to integrate into ongoing projects.
 - | |
 - | -- [2018 - 2019] **Intern Software Developer**
 - | Innovative Tech Co., Hanoi, Vietnam
 - | - Supported the development of AI-driven applications in collaboration with senior developers.
 - | - Gained experience in RESTful API development and worked on database management integrated with AI models.
 - | |
-

Projects

- | **Intelligent Chatbot**
 - | - **Technologies:** Python, NLP, TensorFlow
 - | - Developed a chatbot for customer service that handled 70% of incoming inquiries autonomously.
 - | **Image Classification System**
 - | - **Technologies:** PyTorch, Computer Vision
 - | - Created a deep learning model that achieved over 90% accuracy in classifying images for a retail client.
 - | **Recommendation Engine**
 - | - **Technologies:** Scikit-learn, SQL
 - | - Implemented a recommendation system which led to a 15% increase in sales through personalized user experiences.
-

Education

- | -- [2018] **Bachelor's Degree in Computer Science**
- | University of Hanoi, Hanoi, Vietnam
- | - Specialized in Artificial Intelligence and Machine Learning.
- | - Participated in projects related to AI applications in industrial settings.
- | |
