

Vo Ta Dong

BACKEND DEVELOPER

Phone: 0945767510

Date of birth: 25/12/2003

Address: Nam Từ Liêm, Hà Nội

Email: tadong2003@gmail.com

TARGET

Desire to undergo training as a Backend Developer to apply knowledge in a real-world work environment, learn software development processes, enhance teamwork skills, and improve data handling capabilities

EDUCATION

2021 - 2026

FPT UNIVERSITY

Major : Software engineer

PROJECT

05/2025 - 06/2025

HUMAN RESOURCES MANAGEMENT SYSTEMS

Team size: 4 | Role: BackEnd Developer.

Technologies: ASP .NET Core API, EF Core, SQL Server.

My responsibility :

- Intergrated role-based authentication and authorization using ASP .NET Identity and JWT
- Develop APIs for Salary Management, operations for payroll calculations, deductions, and employee compensation.
- Develop APIs for Leave Management system, handling leave requests, approvals and tracking.

06/2025 - 09/2025

SREAM.AI - REAL ESTATE MANAGEMENT

Team size: 5 | Role: BackEnd Developer + Suppor Frontend Developer + BA

Technologies: ASP .NET Core API, EF Core, SQL Server, SignalR.

My responsibility :

- Developed APIs for User management, Chat management and Real estate Management
- Intergrated role-based authentication and authorization using ASP .NET Identity and JWT
- Implemented real-time chat functionality using C# and SignalR to facilitate communication between users.
- Gather requirements, define API contracts, and design database schemas; translated user stories into scalable backend architecture with EF Core migrations and optimized SQL queries.

GitHub : <https://github.com/Mrpenty/Real-Estate-Management>

WORK EXPERIENCE

04/2023 - 08/2023

FPT SOFTWARE

Position: Inter .NET BackEnd Developer

- Partcipated in backend development training and project-base pratice using C#, .Net
- Build RESTful APIs for a candidate management system
- Added logging mechanisms to track user activies and system actions
- Practiced teamwork, git workflow and backend development standards

11/2025 - 04/2026

FOX.AI

Position: Inter .NET BackEnd Developer

- Applied Clean Architecture to build a well-structured, maintainable, and scalable codebase.
- Integrated Keycloak for robust Authentication and Authorization management.
- Implemented CQRS (Command Query Responsibility Segregation) pattern with MediatR to separate read and write operations, improving performance and maintainability.

SKILL

Technical skills:

- Languages: C#, JavaScript, Java
- Framework: ASP .NET Core, MVC, Windows Presentation Foundation (WPF)
- Database: SQL Server, My SQL, PostgreSQL
- Tools: Git, GitHub, Visual Studio, Postman.
- Cloud Services: Google Cloud, Azure SQL
