

PROFILE

- With over 10 years of experience as a Full Stack Developer, I bring deep expertise in designing and developing business-oriented systems, with a strong focus on Distributor Management Systems (DMS). My background includes delivering tailored solutions for clients in the FMCG and pharmaceutical sectors, combining both technical leadership and hands-on development across mobile and web platforms.
- Currently, I am seeking new opportunities in System and Data Management, where I can leverage my technical foundation and domain knowledge to contribute to data-driven decision-making and organizational growth.

EDUCATION BACKGROUND

HOA SEN UNIVERSITY

Ho Chi Minh City, Vietnam

- **Major:** Information System

2019- 2013

PROFESSIONAL EXPERIENCE

❖ FRIESLANDCAMPINA VIETNAM

Ho Chi Minh City, Vietnam

Senior Full Stack Developer (IT Commerce)

September 2021 – Present

- **Sales data management:**
 - Led the technical implementation of automated data synchronization between in-house systems and external platforms such as DMS and SAP, ensuring timely, accurate, and consistent integration of sales data (using SFPT).
 - Performed data cleansing and transformation to enhance data quality and usability for business analysis and decision-making. (using MSSQL)
 - Collaborated with the sales team to support target setting, providing reliable data insights and historical performance analysis.
 - Developed and maintained automated sales performance reports, enabling real-time D-1 tracking of KPIs and business metrics.
 - Ensured data integrity, consistency, and security across all reporting and data management processes.
- **In-house System management:**
 - Designed to capture additional operational data not available in DMS or SAP (e.g., Master Data, Target-Setting). These systems were integrated with DMS/SAP to enrich and complete business datasets, enabling more accurate reporting, analysis, and decision-making.
 - Developed and managed an internal HRM system to maintain comprehensive information about Sales representatives.
 - Oversaw system performance, troubleshooting, and continuous enhancements to ensure seamless integration with business processes and support operational efficiency.
- **Operations:**
 - Provided user accounts and conducted training sessions for end-users on how to effectively use in-house systems.
 - Delivered ad-hoc data and reports based on company datasets to support various business functions and decision-making needs.
 - Performed monthly reviews and updates of sales team targets and KPIs in alignment with business memos and strategic objectives.
- **Application & Project:**
 - Developed and deployed several applications using Power Apps and Power Automate to support cross-functional teams such as HR and MRT, streamlining workflows and improving operational efficiency.
 - Collaborated closely with the Data & Analytics team by sharing business logic, calculation methods, data sources, and data extraction techniques to support the development of company-wide Power BI dashboards and reports.

- Supported line manager by advising on additional data fields and logic enhancements required in the DMS to meet evolving business needs. These internal recommendations were used to guide the vendor in developing new system functionalities..
- ✓ **Recognition:**
 - Awarded 'Project of the Year 2022' for contributing to the 'Future-Proof Change' initiative — the migration from Accenture to IVY DMS, a flexible and scalable system aligned with the corporation's evolving business needs. Served as the technical owner responsible for managing integration between the new DMS and all existing local applications
 - Successfully implemented a new KPI framework for the sales team in July 2024, leveraging all available company data and proactively requesting additional data when needed to ensure comprehensive performance tracking and alignment with business goals.
 - Owned and led full stack development of display evaluation system to support the company's key Distribution Campaign project. The system enabled 3 layer checkers to efficiently revalidate surveys submitted by Sales representatives, significantly enhancing data accuracy and campaign execution effectiveness. (in May'25)

❖ Global Enterprise Solution (GESO)

Ho Chi Minh City, Vietnam

DMS Technical lead (Reporting to Technical Manager)

Mar 2014 – September 2019

- **Phase 1 – Mobile Team Lead:**
 - Led the technical development and maintenance of the DMS Mobile platform, overseeing architecture, feature development, and system performance.
 - Managed a team of mobile developers, ensuring timely delivery of new features and enhancements based on client and implementation team feedback.
 - Provided hands-on support for live projects, resolving technical issues and ensuring system stability.
- **Phase 2 – DMS Technical Lead (Mobile & Portal):**
 - Promoted to lead the end-to-end technical execution of new DMS projects, encompassing both Portal and Mobile platforms.
 - Owned the full technical lifecycle, including development planning, requirement analysis, and solution architecture. Directly managed mobile development while overseeing portal logic and system design.
 - Coordinated cross-functional teams—developers, implementation consultants, and client stakeholders—to ensure timely and successful project delivery and go-live.
 - Ensured technical solutions aligned with business objectives, emphasizing scalability, usability, and long-term maintainability.
- ✓ **Key Projects Delivered:**
 - FMCG: Bibica, Vifon, Ánh Hồng, Tài Ký.
 - Pharmaceutical: Traphaco, OPV.

ADDITIONAL INFORMATION

▪ **Technical Skills:**

- Programming Languages & Frameworks: C#, .NET Core, ASP.NET MVC, Java (Native).
- Frontend Technologies: React.
- Databases: Microsoft SQL Server, PostgreSQL.
- Mobile Development Tools: Android Studio, basic knowledge of React Native.
- API Integration: RESTful APIs, SOAP.
- Version Control: GitHub.
- Knowledge of React native/Android studio (mobile).
- Microsoft Power Platform: Basic knowledge of Power BI, Power Apps, Power Automate (Power Flow).

▪ **Language:** Vietnamese (native), English (Basic proficiency)
