

Hoang Ngoc Quy

Technical Business Analyst

Profile

Ha Noi, Viet Nam

Education

Engineer's Degree in Information Technology
(2021 > 2026)

Hanoi University of Mining and Geology (HUMG)

- Major: Software Engineering
- GPA: 2.87/4.00

Skills

BA Competencies: Requirement Elicitation, Gap Analysis, UI/UX Wireframing, SRS Documentation, User Stories & Acceptance Criteria.

Technical BA Core: RESTful API Specification (Request/Response structures), SQL Database Design (ERD, Joins, Relationships).

Tools & Platforms: Figma, Draw.io, Docker, n8n, Postman, Git/GitHub.

Professional Summary

A logical Associate Technical BA with a Software Engineering background, holding a professional IT BA Certificate from BKACAD and university-level awards in Mathematics. Skilled in requirement elicitation, structured SRS documentation, and workflow modeling (UML, ERD). Driven to leverage technical insights to analyze system data flows and deliver high-quality software solutions.

Work experience

IT BA Core Course & Project

(03/2026 > 05/2026)

BKACAD Academy

- Successfully elicited, analyzed, and managed system requirements for capstone domain solutions.
- Translated raw business needs into comprehensive SRS documents, functional specifications, and detailed User Stories with clear Acceptance Criteria.
- Modeled precise system workflows using **UML diagrams** (Use Case, Activity, Sequence) via Draw.io.
- *Capstone Project:* bit.ly/4uRux5w

Fresher Frontend Developer

(08/2025 > 03/2026)

Tin Phat Group

- Developed and optimized user interfaces (UI) for internal learning management systems, ensuring seamless system workflows.
- Collaborated closely with Product Owners and Business Analysts to review system requirements, wireframes, and evaluate interface technical feasibility before development.
- Analyzed internal user feedback to continuously improve software navigation and system usability.

Intern Frontend Developer

(01/2025 > 07/2025)

NetNam Corporation

- Built and maintained web interfaces for automated system projects and a Blog Web platform.
- Collaborated with the technical team to model and deploy automated data workflows utilizing **n8n, Docker, and Python (Django)**, successfully optimizing sales operations and system integration efficiency.
- *Internship Project:* bit.ly/43HIO9N

Honors & Awards

Consolation Prize – University Scientific Research Competition (2025)

Consolation Prize – University Student Mathematics Olympiad (2024)

Certifications

IT Business Analyst Professional Certificate - BKACAD Academy

(03/2026 > 05/2026)

TOEIC Listening & Reading (580/990) (2025)

Microsoft Office Specialist (Word, Power Point, Excel) (2024)
