SKILLS

Programming	Java : 2 years Nodejs : < 6 months C# : < 1 year Python: beginner
Platform	game server : SmartfoxServer : 1 years
Operating System	Fluently Linux, Window,...
Database	MySQL, MongoDB: 1 years Cassandra, Elasticsearch, PostgreSQL: beginner
Version control system	Git , Source tree , Bitbucket , Smartgit
Search engine	Elastic search
Software architecture	Event drivent architecture , Microservice Also know : SOA (Software oriented architecture)
Caching	Hazelcast : 1 years , Redis : beginner
Distributed communication	Message Queue : RabbitMQ : 1 years , Kafka: 6 months
Build Tools	Ant ivy , Gradle , Maven
Language	Reading and understanding document in English
Soft skill	Team working Good listener

INTERESTS

- Reading books and paper about technology and new technical
- Play football
- Listening music

PROJECTS

Chat server side

(1/2016 - Present)

Customer	PTT Solutions Internal Department
Description	- This is chat app
Team size	6
My position	Backend Developer
My responsibilities	- Research and implement technology - Development - Optimize code - Bug Fixing
Technologies used	- Netty , Message Pack , MySql , MongoDB , Cassandra , RabbitMQ , Kafka , Hazelcast

Chat server side

(12/2016 - Present)

Customer	Outsourcing team
Description	- This is chat app
Team size	6
My position	Backend Developer
My responsibilities	- Implement technology - Development - Optimize code - Bug Fixing
Technologies used	- Nodejs , Redis , PostgreSQL , RabbitMQ

MMO game server

(7/2016 - Present)

Customer	PTT Solutions Internal Department
Description	- This is the Massively Multiplayer Online game
Team size	5
My position	Backend Developer
My responsibilities	- Research and implement technology - Development - Optimize code - Bug Fixing
Technologies used	- Smartfox Server , Netty , MongoDB , Hazelcast , RabbitMQ

bizweb

(11/2015 - 1/2016)

Customer	DKT team core
Description	- This is the website allow user can make webiste

Team size	8
My position	Backend Developer
My responsibilities	- Research technology - deploy centralized logging
Technologies used	- Spring boot , ELK

Restful API

(6/2015 - 11/2015)

Customer	5play internal Department
Description	- Write restful api
Team size	3
My position	Backend Developer
My responsibilities	- Learning and writing Restful API
Technologies used	- Jeysey , Mysql

Windows phone mobile app

(4/2015 - 6/2015)

Customer	Alone
Description	- 2 Music mobile app
Team size	1
My position	Mobile Developer
My responsibilities	- Development - Optimize code - Bug Fixing
Technologies used	- C# , MVVM

Windows phone mobile app

(7/2014 - 4/2015)

Customer	Mismas Internal Department
Description	- Development some windows phone app
Team size	1
My position	Developer
My responsibilities	- Development - Optimize code - Bug Fixing
Technologies used	- C# , MVVM
