

LE TRONG CUONG

Dotnet Developer

TARGET

Software engineer with 3 year experience with language C# , I has a background OOP, C# and experience in testing in application testing.

I'm currently planning switch to Web .Net and i've been self-learning ASP.NET Core, Web API, Entity Framework Core, LINQ

Seeking .NET Developer position to build scalable and high-performance APIs, and contribute to real-world enterprise systems.

EXPERIENCE

PERSONAL PROJECT

Nov-2025 - Apr-2026

Backend Developer (.NET)

Project: Warehouse Management System

- **Implemented CRUD & Business Logic:** Built core features for Product, Category, Supplier, and Warehouse management, including complex stock-in/out workflows.
 - **Database Optimization:** Applied **Entity Framework Core** (Fluent API) with SQL Server, including **Indexing** (Clustered/Non-Clustered) and **Pagination** to optimize query performance.
 - **Data Traceability (Audit Logs):** Developed a **Centralized Logging system** by overriding SaveChangesAsync to automatically track data changes (Who, When, Old/New values).
 - **Security:** Integrated **JWT Authentication** and **Role-based Authorization** to secure warehouse operations.
 - **Architecture:** Applied **Repository & Unit of Work** patterns to ensure clean code and decouple business logic from data access.
 - **Quality Assurance:** Wrote **Unit Tests** for the service layer using xUnit to ensure system reliability.
- Technologies:** C#, ASP.NET Core Web API, Entity Framework Core, SQL Server, LINQ, JWT, xUnit.

FPT SOFTWARE

Dec-2022 - Apr-2026

Software Engineer

Project: Medical Imaging System (MRI) Japanese Client

- **System Development:** Responsible for implementing business logic and UI functionalities using **C#**, ensuring compliance with strict healthcare industry standards and client specifications.
 - **Quality Assurance & Testing:** Executed comprehensive **Unit Tests** and **Functional Tests** for modules developed by team members, significantly reducing bug leakage and ensuring high-quality deliverables.
 - **Agile Workflow & Reporting:** Prepared detailed technical reports and progress documentation for Japanese clients.
 - **Technical Troubleshooting:** Analyzed and resolved software defects discovered during the testing phase, maintaining system stability for critical medical imaging operations.
 - **Collaboration:** Worked closely with the Task Lead to analyze requirements, providing technical insights to optimize the coding process and project timeline.
- Technologies:** C#, C++, OOP

FPT SOFTWARE

Jun-2022 - Nov-2022

Fresher, OJT Embedded

Complete tasks the assigned by the mentor.

Learn and become familiar source management tool.

Learn and work with gmock and gtest to test functio

SKILL

- **Skills:**
Languages: C#, C++
Backend: ASP.NET Core Web API

Frontend: JavaScript, HTML, CSS
FrameWorks: , Entity FrameWork Core, LINQ
Testing: UnitTest, xUnit
Database: SQL Server
Tool: Git, SVN

 EDUCATION

ĐẠI HỌC CẦN THƠ | 2017 - 2022

Aug-2017 - Jun-2022

Electronic Communication
