

CAO NGOC GIAP

Intern Backend Developer (Java/Spring Boot)

Portfolio: ngocgiap.vercel.app | GitHub: github.com/caongocgiap |

SUMMARY

A Java Developer Intern candidate with a solid foundation in **Spring Boot and React**. Currently seeking a professional environment to gain hands-on experience and contribute to real-world projects. My goal is to work hard, continuously improve my skills, and grow into a **Fullstack Developer within the next 2 years**.

EDUCATION

08/2022 - 01/2025 **FPT Polytechnic College**

- Major: Software Development (Java)
- GPA: 3.8/4

SKILLS

Back-end	Java (Core/OOP), Spring Boot, Spring Data JPA, Spring Security (Basic), RESTful API
Front-end	React (Hooks, Router), TypeScript, Tailwind CSS, Shadcn/ui
Databases	MySQL, SQL Server
Tools	Git (Commit, Push, Pull, Rebase, Branch,...), Postman, Docker (Basic)
Language	- English: Intermediate (Can read technical documentation) - Japanese: Beginner (Currently learning N5 level)

EXPERIENCE

05/2025 - 02/2026 **IT Support Consultant at Hiep Thanh Computer**
Son Dong - Ha Noi | Fulltime
Technical support and troubleshooting related to hardware, software, and network systems

- Deploying and configuring operating systems (Windows/MacOS/Linux)
- Installing, maintaining camera systems and network devices (Routers, Switches,...)

04/2024 - 01/2025 **Intern Backend Developer at FPL HN Factory**
Nam Tu Liem - Ha Noi | Fulltime
Built REST APIs and database systems for management platform (Events, Articles, GPA,...)

- Designed and implemented 30+ RESTful endpoints for systems
- Fixed bugs based on reports from the testing team or user feedback
- Participated in team documentation and interface design
