About Me

I am a dedicated IT professional with over three years of experience in hardware and networking systems. My passion for technology drives me to excel in system integration, security control systems, and telecommunications. I thrive in fast-paced environments that challenge my technical skills, and I believe in the power of innovation to improve efficiency and security. I have a strong ability to troubleshoot complex IT issues and am committed to ensuring seamless operations and satisfied clients.

-

Work Experience

IT Hardware and Network Technician

GTEL Technology Company

Hanoi, Vietnam

June 2020 - Present

- Consulted, installed, and integrated computer network systems and data center solutions for various projects.
- Designed and installed security control systems, including smart cameras and surveillance systems.
- Oversaw the implementation of access control systems and vehicle number plate recognition technologies.
- Coordinated technical supervision and acceptance of telecommunications projects, ensuring compliance with standards.

- Drafted proposals for hardware upgrades and maintenance, enhancing overall system performance.
 - Resolved IT-related incidents promptly, maintaining high service levels.
-

IT Support Specialist

ABC Technology Solutions

Hanoi, Vietnam

May 2018 - May 2020

- Provided technical support for clients, resolving issues related to network connectivity and hardware malfunctions.
 - Managed internal servers, including Mail and DNS systems, contributing to reliable operations.
 - Assisted in the installation and upkeep of phone exchange systems, ensuring seamless communication capabilities.
 - Collaborated with cross-functional teams to monitor project developments and address emergent challenges.
-

Projects

Smart Surveillance System Implementation

- Technologies: IP Cameras, NVR systems, Software integration
 - Description: Spearheaded the development of a smart surveillance solution for a corporate client, enhancing security protocols. My contributions were pivotal in the successful deployment and integration of advanced camera technologies.
-

Access Control System for Events

- Technologies: Access control hardware, Software development
 - Description: Designed and implemented a comprehensive access control system for a major public event. Efficiently managed the integration process and provided ongoing support during the event execution.
-

Education

Bachelor's Degree in Information Technology

Hanoi University of Science and Technology

Graduation Year: 2018
