PROFESSIONAL SUMMARY

Dynamic and detail-oriented IT professional with over 3 years of experience specializing in hardware systems, network architecture, and telecommunications. Demonstrated ability in designing, installing, and integrating computer networks, security systems, and telecommunication solutions. Proven track record of successfully overseeing IT projects from conception through implementation, across multiple sectors. Adept at troubleshooting complex technical issues and delivering effective solutions rapidly. Committed to continuous professional growth and staying abreast of industry trends and technology advancements.

SKILLS

- **Hardware Systems:** Installation and maintenance of computer hardware, peripheral devices
 - **Networking:** Proficient in local area network (LAN) design, troubleshooting, and integration
 - **Telecommunications:** Experience with VoIP systems, telephony integration, and call center technologies
 - **Security Systems:** Installation and integration of surveillance systems, including smart cameras and access control
 - **Operating Systems:** Expert in Windows, Linux operating systems, and Office Suite
 - **Software Tools:** AutoCAD for system design and layout, various project management tools
 - **Problem-Solving:** Strong analytical skills to diagnose issues and implement timely resolutions
 - **Team Collaboration:** Excellent interpersonal communication skills, highly effective in team settings or independently
-

WORK EXPERIENCE

IT Hardware and Network Technician

Tech Solutions Co., Ltd. — Hanoi, Vietnam

May 2020 - Present

- Successfully consulted and implemented comprehensive computer network systems for various high-profile projects, optimizing performance and security.
- Designed and executed the installation of secure surveillance systems, leading to enhanced security measures for client businesses and data.
- Managing and maintaining hardware components, improving the reliability and efficiency of operations across systems.
- Developed and led training sessions for internal staff on hardware usage and troubleshooting techniques, promoting a culture of knowledge-sharing and technical awareness.
- Navigated complex project requirements, ensuring on-time and on-budget completion of numerous installations and upgrades across network services and telecommunications.

Network and Systems Engineer

Digital Innovations Inc. — Hanoi, Vietnam
March 2018 - April 2020

- Played a key role in the design, installation, and management of data center infrastructure and backup systems, which enhanced system resilience and data recovery processes.
- Integrated advanced access control systems, improving physical security protocols and assisting clients with real-time monitoring solutions.
- Spearheaded the creation of an internal knowledge database concerning common IT issues and troubleshooting guides improving response times across departments.
- Collaborated with cross-functional teams on the deployment of new network applications, gathering feedback for iterative improvements and refinements.

Junior IT Technician

Hanoi Tech Solutions — Hanoi, Vietnam
January 2017 - February 2018

- Assisted in the installation and configuration of new computer and network systems, consistently recognized for attention to detail.
- Supported users in troubleshooting hardware and network-related issues, significantly increasing user satisfaction and system usability.
- Conducted regular maintenance checks on both hardware and network systems, involving software updates and hardware repairs, which prevented major outages.
- Provided in-house training for new users on the functionalities of office applications, received positive feedback regarding leadership and mentorship skills.

PROJECTS

Smart Surveillance System Implementation

Implemented for leading corporations in Hanoi

- Led the project management and installation of smart camera systems and access control solutions resulting in a 30% increase in security effectiveness.
- Utilized AutoCAD to design layouts for video surveillance setups ensuring optimal coverage and compliance with safety regulations.

Company-Wide Networking Infrastructure Overhaul

For Tech Solutions Co., Ltd.

- Oversaw the transition to a more robust LAN infrastructure, improving bandwidth and reducing latency across departments, with a documented increase in productivity.
- Managed vendor relationships and negotiated contracts for equipment procurement, facilitating optimum cost-efficiency while ensuring high-quality materials.

Voice-over-IP (VoIP) System Rollout

At Digital Innovations Inc.

- Successfully designed and applied VoIP systems for multiple departments, underscoring enhanced communication capabilities while reducing operational costs by 20%.
 - Delivered training sessions to staff on the new system, improving user adaptation and fluency.
-

EDUCATION

Bachelor of Engineering in Telecommunications

Hanoi University of Science and Technology — Hanoi, Vietnam

Graduated: June 2016

- Courses included: Network Protocols, Telecommunications Systems Design, Security Engineering.
- Conducted comprehensive research on networked communication systems, contributing to a deeper understanding of interactive technologies.

Associate Degree in Information Technology

Hanoi College of Technology — Hanoi, Vietnam

Graduated: June 2014

- Gained foundational skills in IT management, hardware architecture, and software development practices.
 - Participated in various hands-on projects involving computer systems and network configurations.
-

Tran Mai Phuong is a relentless learner, always seeking to enhance her skill set and deliver unparalleled technical solutions. With a passion for IT and a strong commitment to professional collaboration, she is well-prepared to contribute to GTEL's ongoing projects and innovations.
