Gender: Male

Nationality/Origin:
Vietnamese

Professional Summary

Highly motivated AI Engineer with a solid foundation in machine learning and deep learning technologies. Proficient at developing AI-driven applications with a focus on optimization of model performance.

Technical Skills

Programming Languages:

Python, SQL, Java, JavaScript

ML/DL Frameworks: PyTorch, TensorFlow, Scikit-learn

GenAI/LLM Tools: Hugging Face, LangChain, LlamaIndex

Databases: PostgreSQL, MongoDB, Redis, Elasticsearch

DevOps/MLOps: Docker, Kubernetes, MLflow, Airflow

Cloud Platforms: AWS, Google Cloud

Professional Work Experience

AI Developer

ABC Tech Solutions, Ho Chi Minh City, Vietnam

Jan 2021 – Present

- Developed and deployed machine learning models for data prediction and classification.
- Collaborated with cross-functional teams to enhance AI capabilities within existing products.
- Contributed to the design and implementation of AI services and APIs.

Machine Learning Intern

XYZ Innovations, Hanoi, Vietnam

Jun 2019 – Dec 2020

- Assisted in building predictive models for internal analytics projects utilizing TensorFlow and Scikit-Learn.
- Participated in team discussions regarding model optimization and deployment strategies.

Projects

AI-Powered Chatbot

- Implemented an interactive chatbot utilizing Hugging Face Transformers for NLP tasks.
- Enhanced user experience through fine-tuning on user data.

Education

Bachelor's Degree in Computer Science

Hanoi University of Science and Technology
Graduated May 2019

Sales Prediction System

- Developed a machine learning model that predicts sales, leading to a 20% increase in accuracy for the sales team.
- Utilized PostgreSQL for data storage and management.
