PROFESSIONAL SUMMARY

Enthusiastic and highly motivated individual with a strong foundation in software development principles and practices. A recent graduate with a Bachelor's degree in Computer Science, possessing a solid understanding of programming languages including **.NET**, **Java**, and **Python**. My capabilities also span across various stages of software development from design and coding to testing and deployment. I have cultivated a proactive approach to learning new technologies and tools to meet project needs, always eager to enhance my skills and knowledge. I am a quick learner and possess a strong analytical mindset, always striving for innovative solutions to complex challenges. Committed to writing clean and maintainable code, I thrive in both collaborative settings and independent projects.

I am particularly proficient in collaborating with teams of engineering professionals while effectively communicating progress and potential solutions to issues. Fluent in Japanese with a JLPT N3 certification, I am prepared to engage in a multicultural work environment and contribute to projects that necessitate bilingual communication and collaboration.

SKILLS

- **Programming Languages:**
 - Proficient in **C# (.NET)**, **Java**, **Python**
 - Understanding of additional languages enhancing my coding flexibility
- **Web Development:**
 - Familiarity with frontend technologies including **HTML**, **CSS**, and **JavaScript**
 - Recognition of the importance of aesthetically pleasing and functional web interfaces
- **Database Management:**
 - Basic knowledge of relational databases and familiarity with **SQL**
 - Understanding of data structure fundamentals

- **Version Control Systems:**
 - Experience using **Git** and other version control workflows
 - Understanding the criticality of version control in software collaboration
 - **Development Methodologies:**
 - Basic understanding of **Agile** and **Scrum** frameworks
 - Appreciation for iterative development and team feedback
 - **Soft Skills:**
 - Strong analytical skills, effective problem-solving abilities
 - Highly adaptable and eager to learn in dynamic environments
-

WORK EXPERIENCE

Intern Software Developer

ABC Tech Solutions
Hanoi, Vietnam
June 2023 – Present

- Actively participate in multiple software development projects, developing skills under the guidance of experienced developers and project managers.
- Contribute to the development of applications by writing code in **C#** and **Python**, following established coding standards and best practices.
- Assist in debugging and troubleshooting issues in code, proving analytical skills by finding efficient solutions to complex problems.
- Collaborate with peers in code reviews, gaining valuable feedback to enhance the quality and maintainability of software.

Freelance Web Developer

Tran Mai Phuong Web Development
Hanoi, Vietnam
January 2022 – May 2023

- Developed small to medium-sized applications and websites, enhancing skills in front-end technologies such as **HTML**, **CSS**, and **JavaScript**.
 - Created responsive web designs, ensuring usability and performance across different devices and browsers.
 - Managed several client relationships by communicating project updates and understanding client needs, showcasing my commitment to client satisfaction.
-

PROJECTS

Personal Portfolio Website

Technologies Used: HTML, CSS, JavaScript

- Designed and implemented a personal portfolio to showcase skills, projects, and accomplishments; demonstrating the application of web development skills in a real-world context.
- Focused on user experience through intuitive design and fast loading times, utilizing best practices to ensure accessibility.

Budget Tracker Application

Technologies Used: C#, .NET, SQL

- Created a budgeting application that allows users to track their income and expenses efficiently, providing useful insights into their spending habits.
 - Implemented backend functionalities using C# and interacted with a SQL database to manage data persistence.
-

EDUCATION

Bachelor of Science in Computer Science

Vietnam National University

Hanoi, Vietnam

Graduated: June 2023

- Completed coursework in **Software Engineering, Database Management, Data Structures, and Object-Oriented Programming.**
- Participated in various group projects, enhancing collaboration and teamwork skills. Proactively sought leadership roles in project settings, demonstrating communication abilities and knowledge sharing.

JLPT N3 Certification

Japanese Language Institute

Hanoi, Vietnam

Completed: March 2022

- Achieved proficiency level allowing for intermediate conversations and communications in Japanese, enhancing the capacity to engage in bilingual environments effectively.
-

Interest in ongoing professional development through participation in coding workshops, seminars, and collaborative projects to continue enhancing technical and interpersonal skills. I am committed to fostering a spirit of teamwork and collaboration within diverse technology-focused environments. Ready to make meaningful contributions to exciting projects and deliver high-quality results that meet both client and user expectations.
