

Võ Gia Khang

REACTJS DEVELOPER

PROFILE

- 0369452382
- vgiakhang@gmail.com
- <https://github.com/v2kid>
- 12 District

SKILLS

FRONT-END
RESTful APIs, React, Redux-Toolkit

BACK-END
NestJS, NodeJS, MySQL

LANGUAGES
Read and understand documents, English communication skills

INTERESTS

exploring new technologies and creating user-friendly and responsive web applications.

OBJECTIVE

Highly motivated Information Technology student seeking an internship position or entry-level role to utilize and enhance skills in front-end development with a focus on React and Redux Toolkit.

EDUCATION

IT SOFTWARE

2020 - 2023

Infomation Technology College

Graduate with GPA : 6.54/10

SKILL

Front-end

Programming Languages: TypeScript, JavaScript, HTML, CSS
Frameworks and Libraries: React, Redux, Redux Toolkit, RTK-Query, Tailwind, materialUI
Version Control: Git, GitHub
Front-End Development: Responsive Design, DOM Manipulation, Problem-Solving and Analytical Skills
Collaboration and Teamwork
Communication Skills

ACTIVITIES

CONTRIBUTE

2022 - 2023

Github

Open Source Contributions: Joining and share source projects related to front-end development, React, or Redux Toolkit

Personal project

Developed a full-stack web application that combines NestJS as the backend framework, React-Redux Toolkit for front-end state management, and JWT authentication for secure user access. The application also integrates Google OAuth 2.0 for streamlined authentication and implements RTK Query for efficient data fetching.

Technologies Used:

Backend: NestJS, TypeScript, JWT, Guard

Frontend: React, React-Redux Toolkit, RTK Query, Tailwind

Authentication: JWT, Google OAuth 2.0

Database: Mongodb, Mongoose,

Styling: CSS, SASS
