## EDUCATION

9/2021 - 6/2025

UNIVERSITY OF INFORMATION TECHNOLOGY

COMPUTER NETWORKS AND DATA COMMUNICATION

Bachelor's degree – Good

## INTRODUCTION

Proficient in multiple programming languages and modern frameworks, with hands-on experience building scalable and user-focused web applications. Passionate about continuously expanding technical expertise through real-world projects and emerging technologies. Strong focus on problem-solving, clean code practices, and effective collaboration. Committed to ongoing professional growth, improving communication skills, and delivering meaningful impact in every development role.

## WORK EXPERIENCE

### QKIT SOFTWARE

3/2025 - 6/2025

#### ● INTERN FRONTEND DEVELOPER

- Developed and maintained responsive and user-friendly web interfaces, enhancing data visualization and improving user access to critical features across teams.
- Designed and built front-end components using Angular, connecting them to the backend APIs.

### MEDICAL 315

11/2025 - now

#### ● FRESHER FRONTEND DEVELOPER

- Contributed to enhancing internal medical management and reporting systems, improving usability, data accuracy, and operational efficiency for daily clinical workflows.
- Implemented time-based access restrictions and refined role-based permissions to strengthen data security and ensure compliance with internal policies.
- Developed and optimized reporting features, added advanced filters, new financial columns, and Excel export functionality to support faster and more accurate business analysis.
- Collaborated closely with backend developers and stakeholders to integrate RESTful APIs and continuously improve system performance and user experience.

## SKILLS

- Programming Languages:** Javascript, Typescript
- Web Technologies:** HTML, CSS, ReactJs, NextJs, NodeJs
- Databases:** MySQL, MongoDB, PostgreSQL, Redis
- UI Libraries:** TailwindCSS, Ant Design, Material UI
- Tools & Technologies:** Git, Github, Github Actions (CI/CD)
- Concepts:** OOPS, DSA, RESTful APIs, Design Pattern, Clean Architecture
- Soft Skill:** Problem-Solving, Teamwork, Self-Learning
- Other:** Docker, RabbitMQ

## PROJECTS

### Medical 315 – Internal Clinic Management System

11/2025 - Now

#### Frontend Developer (React)

*Developed and maintained an internal healthcare management system supporting employee management, patient intake, clinic operations, inventory, pharmacy, billing, and reporting.*

- Built and maintained complex React-based UI modules for patient intake, medical reports, pharmacy, and invoice management.
- Designed and implemented reusable React components to improve code maintainability and scalability across multiple features.
- Implemented RBAC and time-based data visibility to ensure secure access control for different user roles.
- Enhanced reporting and analytics by building dynamic filters, financial summaries, and Excel export features for operational and business insights.

### Noblee App

12/2025 - Now

#### Fullstack Developer

*Built a full-featured ERP system integrated with an E-commerce platform specialized in electronic products. The system helps businesses manage internal operations while providing an online shopping experience for customers.*

##### Frontend (Next.js – Deep Focus):

- Built application using Next.js, leveraging nested layouts and route segments for scalable architecture.
- Integrated data fetching strategies using React Query and server-side fetching patterns.
- Managed global and local state effectively using Zustand / React Query depending on data scope.
- Optimized performance using lazy loading, code splitting, and proper caching strategies

##### Backend:

- Designed relational database schema (users, roles, permissions, products, categories, inventory, orders)
- Implemented RBAC + ABAC authorization logic for ERP modules.
- Built modular Express APIs following MVC architecture.

##### TECHNOLOGY

- Frontend: Next.js, Tailwind CSS
- Database: PostgreSQL (Drizzle + Supabase)
- Authentication: JWT
- State Management: React Query, Zustand
- Authorization: RBAC + ABAC
- Tools: Git, GitHub

## CERTIFICATIONS

12/2024

TOEIC (700)
